Kill that Cold with Creofos

before it develops into pneumonia

Creofos is the only prescription that wastes no time on dosing symptoms—it quickly kills the germs that cause the trouble. The very first dose starts to rid the body of cold germs, influenza germs, pneumonia germs. When these are gone the cold symptoms disappear of themselves.

Start taking a dose or two to-night. See for yourself how quickly your cold is gone. And what a relief to know that when you are taking Creofos such complications as bronchitis, influenza and pneumonia cannot set in.

Creofos has long been used by noted physicians and hospitals, and is now sold by all druggists. Three household forms: Creofos, \$1.25; Creofos Capsules, for convenience, for coughs, \$1.50. Quick and certain; economical; fully guaranteed. Try just one bottle and you will never use anything else but Creofos.

What Doctors do for their own sore throats

"I want to congratulate you, Doctor, on the great success I hear you are having with your throat cases. I myself have attacks of inflamed throat every winter, can't seem to get rid of them. Wish you would take a look at mine and tell me what to do."

"I guess, Doctor, I will have to introduce you to Formamint—this real good throat antiseptic with which you will keep the soft tissues in an almost constant antiseptic bath, because you will find Formamint pleasant and convenient enough to use frequently. I find that the average patient will readily dissolve Formamint in his mouth every hour or so, and you know how hard it is to get them to use gargles or sprays consistently, even two or three times a day, especially children."

"Formamint tablets certainly relieve sore throats and are heading off a lot of tonsillitis for me, but I am even more interested in their prophylactic power, and so I am advising my patients to use them freely during the throat and influenza season to prevent infection."

Recommended by throat specialists, physicians, dentists and druggists.
